1. S.No.1 of Shantakere, Area 25 acres.

The plot of 25 acres is in two bits, one of 16 acres and another of 9 acres. As the 16 acres plot is part of the 1963 teak Regeneration area of Arasalu Range and adjacent to the plantation it was not considered appropriate to recommend release and hence the same is rejected. The second plot of 9 acres in Shantikere S.No.1 is in continuation of the already released area of 40 acres in S.No.1 of Masrur State Forest, and close to the line. The standing crop consists of flowered bamboos and sparsely distributed Hunal and Mathi. This 9 acre plot was therefore agreed for release.

2. S.No.21 of Basavapura (55 acres) in two blocks.

The matter was reexamined again, and the decision taken last time not to release the portion of S.No.31, close to the teak plantation containing a few patches of teak sowings in the past holds good.

3. S.No.27 and 28 (78 acres) in Harohitlu State Forest.

The area is adjacent to the colony site where the colony has been formed. The crop consists of big bamboo, mathi and other miscellaneous for a few sparse teak, Formation of plantation close to the colony site would not be advisable and hence it was

...2

it was recommended for release.

4. S.No.155 of Aluvally (35 acres).

The area is situated in Gilalgundi State Forest and adjacent to Revenue land and along the 'D' line. The standing crop consists of flowered bamboo, no teak or rosewood, but stunted growth of miscellaneous species. It was therefore recommended for release.

5. S.No.185 (120 acres) - Karadibetta State Forest.

This area is along the 'D' line of Karadibetta State Forest and adjacent to the area cultivated outside. The standing growth consists of flowered bamboos, and miscellaneous undergrowth low-lying and likely to be slushy in the rains. The site is also close to the Chordi - Kalmane motor road. Since the site is not suitable for teak plantation, it was recommended for release.

6. Alkuni Colony site.

The area of 8 acres originally cleared by the Public Works Department for colony site having been given up, may be handed over to the Forest Department for planting up during 1962. It was agreed to release a similar area for colony site adjacent to released area in lieu of the abandoned site, in Chordi Minor Forest.
